Investment philosophy:

At Triune, we believe every investor deserves to know three paramount, essential truths about their investments:

* Portfolio Structure - The intentional combination of stocks, bonds, cash, real estate and other investment within your portfolio. Disciplined portfolio structure enables your investment to behave rationally.

* Personalized, True Performance Data - Actual performance net of all expenses over any trailing time period. This data should be available to you on-demand.

* "All-in" Costs = Commissions, fees, "mark-up" and transaction costs which are a drag on portfolio returns. Minimizing expenses is central to maximizing returns and traditional brokerage firms and banks are adept at masking the true total costs of your portfolio.

TRIUNE'S GUIDING PRINCIPLE

Two are better than **one**, because they have a **good return** for their work: **If one** falls down, his **friend** can help him up.

But pity the man who falls and has no one **help** him up! **Though one** may be over-powered, **two** can defend themselves.

A cord of **three** strands is not quickly broken.

(Ecclesiastes 4:9-12)
