somniCare, Inc. CPAP/BiPAP equipment was started to help patients receive the sleep apnea treatment necessary for successful results and a better life. We can help you stop snoring and become compliant to PAP therapy! We define success as a patient who is compliant to therapy, has improvement in the symptoms that led them to sleep testing, and has worked through their CPAP mask and equipment issues. somniCare, Inc staff doesn't rest until you feel rested and stop snoring!

somniCare, Inc. is a highly experienced company specializing only in CPAP and BiPAP therapy. We are focused on developing an individualized program that is tailored to you, addresses your needs, and helps you stop snoring and start living a higher quality of life.

As always, it is the people providing the care and expertise that determine the success of CPAP/BiPAP therapy. Our dedicated staff of respiratory therapists and patient care coordinators will assist you in direct patient care involving extensive education, CPAP mask selection, insurance benefit verification, and extensive follow-up to ensure successful sleep apnea treatment. somniCare, Inc. service doesn't stop once you receive your equipment, we are your partner to help you stop snoring and feel rested after sleep.
