

Woodworks Hardwood Floors

Hardwoods will make the difference to your home!

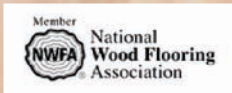

Welcome !

To the house of Woodworks. Apty named because all we do is install and finish hardwood floors. This family business has worked to beautify many houses and commercial buildings. We have worked on the chancellor's house of UMKC, old buildings down at the Missouri river bottoms, and thousands of houses in the Metro area.

We are committed to doing the best work possible to NWFA standards and doing it in a timely fashion. We also understand that you the customer will be displaced and inconvenienced by the work and we will accomodate you where ever possible.

We are a member of the National Wood Flooring Association which sets standards for hardwood installation and finishing.

We are a member the Better Business Bureau since 1998 and have received a certificate of Excellence for Customer Service for the last three years.

"Dustless System"

We use the very efficient CAV Power Professional Dust Control system. Why?

This is a self-contained system that is placed inside the house while it filters the air with micro-vac bags. The system eliminates most of the fine dust while working on your floors! No more messy hoses and open windows and doors!
